NADIUS SOLUTIONS

Project Manager | Lahore, Pakistan | May 2019 - Present

I identify the scope of projects and plan out the development timeline accordingly while recruiting freelancers, if needed, to wrap up development quickly and manage them during the entirety of the project. I also design and develop websites and web applications, essentially the front-end and the back-end.

VETERANLOGIX

UI/UX Designer & Developer | Lahore, Pakistan | May 2018 - Present

I oversee the overall development, help the team understand how to use Git to keep the work flow clean, act as a supervisor and lead on issues aside from design and front-end development and streamline tasks to improve productivity. I implement new features while ensuring a seamless integration. I also do user experience reviews for projects and design graphics.

HOBUDDIES (PVT) LTD.

Interim C.T.O. & Front-End Developer | Lahore, Pakistan | March 2017 - 2018

Improved the team's productivity by introducing a practical Git branching model and Agile; 20% improvement was observed overall. Communicated with the clientele to design intuitive layouts according to their needs while listening to their feedback. Streamlined the workflow using Git, introduced Trello and Scrum ming for better work ethics.

INNOVERSETECH

Graphics Designer | Lahore, Pakistan | April 2016 - March 2017

Designed graphics for the clientele that varied between digital and print media. Worked alongside the developers to create responsive layouts and themes. Wrote markup and functionality for websites using Javascript and jQuery.

FREELANCER (SELF-EMPLOYED)

Web Designer & Video Editor | Lahore, Pakistan | December 2017 - 2018

Worked as a freelance designer and video editor for the local clientele. Converted PSDs to responsive HTML. Designed web pages for marketing purposes. Made animations and did video edits using Adobe After Effects and Adobe Premiere.
